

Connect. Inspire. Act.

Young Organics BioFach Camp 2013:

“Connect inspire act – Share your actions for a future organic world!”

Inspired by the BioFach key theme *“Shared values. Action for a future world”* Young Organics warmly invites all young-minded people to the BioFach Camp 2013.

In an innovative discussion forum you are invited to contribute visions, ideas and actions for a (future) organic and fair world. What are the actions you want to take now and in the next years to drive the (Young) Organic Movement forward? What is needed from leaders, companies or organizations to make trade fair and to grow food ecologically responsible? Which impact do you want your consumption to have?

These are only a few of the topics to be discussed in the open space forum during the BioFach camp. Three young keynote speakers will talk about their visions and concrete actions on the topics food waste, young farmers in Europe and sustainable development of the organic food sector. In addition all participants are invited to get active and initiate their own discussion group in one of the time slots during the open space.

The expected outcome of the Camp is to provide a list of focus topics and actions for the young organic movement. These topics can be referred to in other workshops and activities in the next year.

The Young Organics BioFach Camp takes place on Thursday, 14th February from 12:00 to 17:00 in Room Seoul (3rd floor of the congress building). Visitors will find a continuously updated pin board agenda at the congress info desk on the second floor.

Agenda

12.00- 12:30	Film: <i>Future Farmers in the Spotlight</i> Joris van der Kamp, Juliane Haufe
